I was able to sign your time in for this week, so there should be no problems. I'm still working on getting this resolved so you'll hopefully be able to start entering the times directly yourself. This Kronos issue happened with a lot of us when we first started, but they were also able to fix it pretty quickly. Unfortunately I think they were just slow fixing it this week with the Holiday.

Thanks,

Beesh

?Hi Beesh,

Andrea has been signing in Lucrecia's time for her since we are not up and running with Kronos yet. Do you think you should be doing that for me or should I ask someone else to do it?

I don't want to fall thru the cracks with getting paid or risk getting taken off the payroll and losing my benefits and health insurance.

Thanks
Melissa
